HOLISTIC PUBLISHING SOLUTIONS FOR YOUR END-TO-END NEEDS

With a solid base in publishing technology backed with continuous research and development, Integra has the necessary bandwidth, vast base of skilled personnel, and infrastructure systems to help journal publishers scale up to the next level of success. No matter what your journal publishing needs are, we have a custom solution for you!

We consistently do this by:

- delivering rapid production transit times for articles from manuscript acceptance to publication
- leveraging advanced computing capabilities like Natural Language Processing (NLP), Machine Learning (ML), and Artificial Intelligence (AI) in our journal production system
- creating highly scalable operations model and processes that offer seamless scale-up for publishers

24

Years of Journal production services to top publishers

850,000+

Journal Pages per year

660,000+

pages Project managed every year

1,200
